New Cumberland River Rescue
Chief Matthew Stoner

Dear Matt:

On behalf of the American Trauma Society and South Central PA Highway Safety, we would like to thank you and your department for being a part of the stationary parade for the "Lights on for Life" event held on Friday, December 12, 2008 at Cumberland Valley High School.

The parade would not have been as successful without your participation and the wonderful visual effects you provided for students and motorists.

Once again, thank you for your time and your Department's willingness to assist us with this important program on DUI awareness. We look forward to your participation in next year's event.

Respectfully submitted,
